1. Two biplanes and 25 to 28 single-engine aircraft with blue stripes on their rudder assemblies, presumably IL-10s, were seen on the eastern edge of the Jueterbog-Altes Lager (N 52/E 69) airfield between 3 and 3:30 p.m. on 19 October 1950. Twelve railroad tank cars with a capacity of about 300 hectoliters of gasoline each were on the railroad spur track. A laborer at the field said that the aircraft had come from Reinsdorf (N 52/E 78) on 19 October 1950. \*

- \* Comment. After the construction work was completed the airfield was apparently occupied by the same ground attack regiment which was stationed in Jueterbog before the beginning of the work. The regiment was transferred to Reinsdorf during the construction work.
